PRODUCT GUIDE: HI-FLO 7000 AWTS

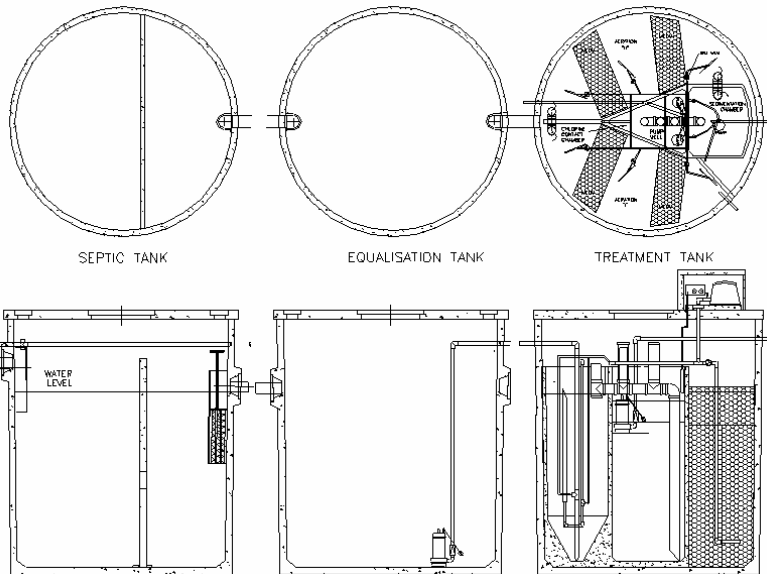

DESCRIPTION

- Turn your wastewater into clear, odourless, safe water for irrigation.
- Reliable, high quality, Australian built, all concrete treatment system.
- Backed up by the best customer service and after sales support.
- Designed to deal with high water loads over short periods of time.
- Can be installed as modular units allowing your treatment system to grow with your development.
- Uses large equalisation tank to ensure high quality water treatment while allowing for large fluctuations in wastewater generation rates.
- Includes disinfection of the wastewater such that it can be re-used to irrigate large areas of land.
- Used for large developments such as schools, malls, resorts, camping grounds, hotels, factories, clubs.
